CHANDLER CONFUSED BY WORKINGMAN'S QUERIES, MAKES EVASIVE ANSWER

Singer Sewing Machine Workmen Laugh at Him When One of Their Number Calls Attention to His Party's Failures - Spell Binding Dismal.

Senator George B. Chandler of Rocky Hill addressed 150 employes of Singer Mfg. Co. in front of the factory on hour today. He spoke for 25 , minutes without invoking the slightest evidence of applause for any of the arguments that he tried to drive home for Goodwin and the Republican party.

When he had about finished talking John Murphy an employe of the plant asked the privilege of asking Mr. Chandler a question. The privilege was granted. "Has not the Republi-

can party had control of both branches of the Legislature for the past 16 or 18 years?" asked Murphy. "It has," replied Mr. Chandler. "Then in the name of common sense why has not the party given us all of these things that you are talking about here today? There is nothing new about the Employers' Liability

In closing he produced a copy of a publication called "Law Notes" in which he read a treatise on the opinion of Judge Baldwin in the celebrated Hoxsey case.

The opinion was written in conformity with the constitutional law in which Judge Baldwin found that the Federal Employers' Liability act was unconstitutional being an infringement upon the rights of the state. Mr. Chandler had the temerity to tell his hearers that Judge Baldwin did not have to write the opinion, despite the fact that he was a judge of the court and had to write his opinion in accordance with the law.

Mr. Chandler who is a book agent is reputed to be one of the best book sellers in the country and he worked and anough today to sell a hymn.

Aubrun made his 6th lap in 1 minute, 36 seconds, at the rate of a mile a minute the fastest time ver recorded. is reputed to be one of the best book sellers in the country and he worked hard enough today to sell a hymn book to an elephant without getting a rise out of his hearers. Not even when he introduced John Alexander Henry Robinson, the candidate for senator in the 23rd district did he get the slightest bit of enthusiasm. Mr. Robinson took off his hat and answered "I will" to several questions put to him by Mr. Chandler and then when he introduced John Alexander Henry Robinson, the candidate for senator in the 23rd district did he get the slightest bit of enthusiasm. Mr. Robinson took off his hat and answered "I will" to several questions put to him by Mr. Chandler and then said that he would do his best if he was elected.

It is doubtful whether open air railies will prove successful to the Republicans in this campaign. Mr. Chandler is reputed to be the most eloquent man, and most convincing talker on the Republican stump in this campaign, and if he could not get more than 150 to listen to him it is doubtful that anyone else could.

Brookins completed but four laps and descended. As he came to the earth, Lieutenant Hubert Latham in his Antoinette monoplane ascended. It was the first time an Antoinette monoplane had ever been seen in America and the beauty and grace of the machine attracted widespread attention. Charles Foster Willard, in his Curtiss biplane, then ascended. After an all day session with Registrars Rooney and Lounsbury, and Assistant Town Clerk Mullins, Jeremiah Holmes, leader of the local movement for no-license, was not at all certain that his petition with 1,870 names asking for a vote on the question of license at the forthcoming election was sufficient under the law to cause such a vote to be taken.

LOSS OF \$15,000,000 BY

THE FOREST FIRES

(Special from United Press.)
Washington, Oct. 24.—Declaring that last summer's fires either burned up or killed between one and two per cent. of the total stand of national forest timber of the United States, the officers of the Forest Service today issued the first official estimate of damages. The burned area represents a loss of \$15,000,000, or approximately six billion feet of lumber. The area burned over is declared to be not less than a million and a quarter acres.

The heaviest losses were in two Idaho fires, the Coer d'Alene, where over three billion board feet is reported killed or destroyed, and over 450,000 acres burned over; the Clearwater, where one billion feet was killed or destroyed and 300,000 acres burned over.
